FOR PUTIN" (T4P)  
INITIATIVE**

*In Numbers and  
Documents*

# ABOUT THE T4P INITIATIVE

**The Tribunal for Putin (T4P)** global initiative was set up in response to the all-out war launched by Russia against Ukraine in February 2022. In all the regions of Ukraine, participant-organisations (see below) document events that display features of crimes defined in the Rome Statute of the International Criminal Court as Genocide, Crimes Against Humanity, War Crimes. The Initiative makes use, where possible, of the existing procedures of the United Nations, the Council of Europe, the OSCE, the European Union and the International Criminal Court to avert such crimes and to bring those responsible to justice.

*We are convinced that the evil currently being perpetrated by Russia in Ukraine is a result of the failure to condemn the evil that was done in the past.*

# ABOUT THE DOCUMENTATION METHODOLOGY

---

Russia has been fighting Ukraine since 2014. As a consequence, Ukrainian NGOs already have experience in documenting war crimes during the fighting in eastern Ukraine.

When documenting incidents, the organisations participating in the T4P Initiative monitor open sources (social networks, media news, statements by the authorities), seeking information about a particular incident that bears the features of a war crime (shelling of a residential building, killing of civilians, torture and other crimes listed in the Rome Statute). Testimony is also gathered from witnesses and the victims of these crimes.

After the information has been checked, details referring to the particular incident are added to our database. Priority is given to the search for media files and details of individual(s) which can be verified by searches using open sources (OSINT). Where possible the Initiative's participant-organisations check details where the crime was committed, e.g., taking photos of the destruction caused by drones, and themselves talking to witnesses of the event.

**One unique aspect of the T4P approach to information-gathering is that it follows a regional principle, i.e., various parts of Ukraine are assigned to different organisations. Usually, the organisation has worked for years in the area and understands its geography and other distinctive local features. In certain parts of the country, the T4P has collected more information about war crimes than either the Ukrainian government or international organisations.**

## UKRAINE WAR ARCHIVE

**The Ukraine War Archive (UWA)** is the most comprehensive digital repository documenting Russia's war in Ukraine, preserving crucial evidence through a sophisticated cloud-based platform that serves the causes of justice, historical truth, and future security planning. The core of the Archive is a vast and growing database of content contributed by members of the Ukrainian and international war documentation organisations and initiatives, aggregated open-source data and materials from official entities. In numbers, it's more than 280+TB of data, 36,000+ registered events, 7,200+ interviews and 26+ million files from 150+ partners and contributors. Members of the T4P initiative also contribute their materials to the UWA.
